## RELATED BOOK :

### **CentOS Wikipedia**

CentOS (/ s n t s /, from Community Enterprise Operating System) is a Linux distribution that provides a free, enterprise-class, community-supported computing platform functionally compatible with its upstream source, Red Hat Enterprise Linux (RHEL). In January 2014, CentOS announced the official joining with Red Hat while staying independent from RHEL, under a new CentOS governing board.

### **Securing Wi Fi with PEAP and FreeRADIUS on CentOS**

I recently read Low-cost RADIUS servers for Wi-Fi security, a review of four RADIUS servers with an emphasis on Wi-Fi network security use cases. The main complaint about FreeRADIUS, the only no-cost option mentioned, is the difficulty of configuration. To see this for myself, I decided to try setting up a Wi-Fi network secured with PEAP using FreeRADIUS
