Financial Thresholds Materiality Tracker

Materiality is closely related to risk management and decision-making in the face of uncertainty This raises the criteria of probability and magnitude of anticipated events as applied in risk management. Both probability and magnitude call for the application of thresholds in making materiality judgments. In financial accounting, preparers and auditors would independently decide what

Understanding Auditing and the Audit Process

An auditor does not obtain all of these types of evidence for every financial statement assertion. For example, when attempting to verify an amount receivable the auditor may rely on direct confirmation from the debtor and evidence of payment made after the year end to provide assurance that the receivable both existed and was collectable.
