RELATED BOOK :

Electrical wiring Wikipedia

Electrical wiring is an electrical installation of cabling and associated devices such as switches, distribution boards, sockets and light fittings in a structure.. Wiring is subject to safety standards for design and installation. Allowable wire and cable types and sizes are specified according to the circuit operating voltage and electric current capability, with further restrictions on the

National Electrical Code Wikipedia

The National Electrical Code (NEC), or NFPA 70, is a regionally adoptable standard for the safe installation of electrical wiring and equipment in the United States.It is part of the National Fire Codes series published by the National Fire Protection Association (NFPA), a private trade association. Despite the use of the term "national", it is not a federal law.

Electrical Wiring Colour Codes Renovate Forum

Electrical Wiring Colour Codes In Australia, We use a somewhat confusing mixed colour coding system. Our 'equipment' wiring and our 'installation' wiring (i.e. the wiring behind the power-point/wall) colour codes are different. We use an European system for our equipment wiring, but we use an old British-ish system for our installation wiring. To complicate things a little, our equipment wiring
