Mindsight Near Death and Out of Body Experiences in the

This is a fascinating study of blind people who describe being able to suddenly see quite clearly during a Near Death Experience (NDE). It is all the more interesting because congenitally blind people who have their sight restored do not see well -- it is a confusing blur of color and shapes, and they sometimes want the "gift of sight" taken back.

Near death experience Wikipedia

A near-death experience (NDE) is a personal experience associated with death or impending death. When positive, such experiences may encompass a variety of sensations including detachment from the body, feelings of levitation, total serenity, security, warmth, the experience of absolute dissolution, and the presence of a light.

The Near Death Experience of Six Year Old Ari Hallmark

A great story. Being involved as a counselor most of my life, one of the great fears people have is fear of death. When little children share their near death experiences, it is an encouragement to not only other children, but adults as well.
