Evolutionary biology Wikipedia

The idea of evolution by natural selection was proposed by Charles Darwin in 1859, but evolutionary biology, as an academic discipline in its own right, emerged during the period of the modern synthesis in the 1930s and 1940s. It was not until the 1980s that many universities had departments of evolutionary biology. In the United States, many universities have created departments of molecular

Co operation evolution Wikipedia

In evolution, co-operation is the process where groups of organisms work or act together for common or mutual benefits. It is commonly defined as any adaptation that has evolved, at least in part, to increase the reproductive success of the actor's social partners. For example, territorial choruses by male lions discourage intruders and are likely to benefit all contributors.

Evolution Vs God Top Documentary Films

According to the documentary short Evolution vs. God, Darwinism is a leap of faith that falls far short of Creationism in explaining the mysteries of our existence. The film, which could have presented a fascinating open debate on a crucial subject, quickly devolves into a shallow-minded "gotcha" exercise.. Throughout the course of the film, we're given flashes of rapidly edited interview
