Packaging and labeling Wikipedia

Packaging is the science, art and technology of enclosing or protecting products for distribution, storage, sale, and use. Packaging also refers to the process of designing, evaluating, and producing packages. Packaging can be described as a coordinated system of preparing goods for transport, warehousing, logistics, sale, and end use.

Arcwise Round shaped corrugated board packaging

Arcwise is a concept for the premiumization of packaging and to create attraction and attention in point of sale.

Packaging has less than a second to grab a customer's attention in the razor-sharp competition in the store shelves. Research indicates that the shape of an object has a critical influence on how people react to it and objects having curved shapes are preferred before objects.
