

FLOATING STORAGE UNIT

RELATED BOOK :

Floating production storage and offloading Wikipedia

A floating production storage and offloading (FPSO) unit is a floating vessel used by the offshore oil and gas industry for the production and processing of hydrocarbons, and for the storage of oil. A FPSO vessel is designed to receive hydrocarbons produced by itself or from nearby platforms or subsea template, process them, and store oil until it can be offloaded onto a tanker or, less

Property Topics and Concepts American Planning Association

Flexible Zoning Techniques Floating Zones. Basics A floating zone is a zoning district that delineates conditions which must be met before that zoning district can be approved for an existing piece of land. Rather than being placed on the zoning map as traditional zones are, however, the floating zone is simply written as an amendment in the zoning ordinance.
