What s a mobile app contentious com

First: What s an app? This concept has gotten pretty mushy. App is short for application, and traditionally this was just a really generic term for any standalone bit of software that runs on top of a computer's operating system the way that Microsoft Word runs on top of the Windows operating system.

Mobile Web Wikipedia

The mobile web was first popularized by a silicon valley company known as Unwired Planet. In 1997, Unwired Planet, Nokia, Ericsson, and Motorola started the WAP Forum to create and harmonize the standards to ease the transition to bandwidth networks and small display devices. The WAP standard was built on a three-layer, middleware architecture that fueled the early growth of the mobile web
