RELATED BOOK :

Vegetable Gardening for Beginners The Basics of Planting

Plant in a sunny location. Most vegetables need at least 6 hours of direct sunlight per day. The more sunlight they receive, the greater the harvest, the bigger the veggies, and the better the taste. Plant in good soil. Plants roots penetrate soft soil more easily, so you need nice loamy soil.

Beginner Vegetable Garden Better Homes Gardens

If you plan it right, you can enjoy a beautiful vegetable garden without having to spend hours tending to it. When deciding what to plant in a beginner vegetable garden, it's best to start small. Many gardeners can get too excited at the beginning of the season and plant more warm-season vegetables than they need.

Vegetable Gardening for Beginners Gardener's Supply

Single rows of crops, while they might be efficient on farms that use large machines for planting, cultivating, and harvesting, are often not the best way to go in the backyard vegetable garden. In a home-sized garden, the fewer rows you have, the fewer paths between rows you will need, and the more square footage you will have available for growing crops.

How to Start a Vegetable Garden Bonnie Plants

In many regions, vegetables will grow 3 or 4 seasons of the year. Warm-season vegetables, such as tomatoes and cucumbers, grow in the frost-free weather of late spring until fall. Cool-season vegetables, such as lettuce and broccoli, grow in the cooler weather of early spring and fall; most withstand light frosts.

Tips on How to Grow a Vegetable Garden Dengarden

Once your plants have begun to grow, you may want to thin them out a bit. If the plants are growing too close together, they will be competing for water, nutrients and sun. Keep your plants thinned out as they grow. I like to keep mine, what I call shoulder to shoulder. Don't let one encroach on the next one's space.
