Guns germs and Steel the fates of human societies

Guns, Germs, and Steel is about differences of human societies between the different continents over the last 11,000 years. Those differences are largely due to differences in the wild plant and animal species available for domestication, and in the continental axes.

Guns Germs and Steel The Fates of Human Societies Jared

The proximate causes of this were germs, technology (guns and steel weapons, ships), domestic animals (horses), and writing. Hence the title. Underlying these immediate causes, however, is what Diamond sees as the central key to understanding human history food production, or the domestication of plants and animals.
