Dividend yield Wikipedia

The dividend yield or dividend-price ratio of a share is the dividend per share, divided by the price per share. It is also a company's total annual dividend payments divided by its market capitalization, assuming the number of shares is constant. It is often expressed as a percentage. Dividend yield is used to calculate the earning on investment (shares) considering only the returns in the

Dividend Calculator

Yield on Cost. Yield on Cost is a concept whereby you calculate your existing yield vs the share price you paid when you purchased the investment (your cost basis) not the current share price. For people who buy dividend growth stocks (stocks that routinely increase their dividend) the yield on cost metric is a way to measure the annual income or return on your original investment if you hold
