Math in Focus Exodus Books

Math in Focus is designed to meet the National Council of Teachers of Mathematics standards, while avoiding the repetitive instruction typical of American math curricula. Students master concepts before moving on, so they don't need to continually backtrack.

Math in Focus The Singapore Approach Cathy Duffy

Math in Focus mirrors the original Singapore Math's layout with books A and B for each level for Teacher's Editions, student textbooks, and student workbooks, essentially splitting the course for each level into two parts. Kindergarten is the exception to this layout since it has only workbooks rather than separate texts and workbooks
