Interior architecture Wikipedia

Interior Architecture is the design of a building or shelter inside out, type home that can be fixed. It can also be the initial design and plan for use, then later redesign to accommodate a changed purpose, or a significantly revised design for adaptive reuse of the building shell.

Interior Design Architecture Planning and Interior Design

Excellence in Interior Architecture and Design cannot be reduced to a pure science. An interior space is the most immediate and critical interface of humans and materials, of calculation and emotion. It is a statement which, while responding to the most basic of human needs and business goals, must also satisfy the higher needs of stimulation, expression and brand enrichment.
