Color Systems Subtractive Additive Color WORQX

Color systems are determined by the medium of the composition: the subtractive method is used for paint and print; the additive method for digital mediums. How colors render in printed format may differ from what appears on screen due to the limitations between the visible spectrum and printed digital media.

Pong Story Main page

1947, however, is believed to be the first year when a game was designed for playing on a Cathode Ray Tube (CRT). This very simple game was designed by Thomas T. Goldsmith Jr. and Estle Ray Mann. A patent application was filed on January 25th, 1947 and U.S. Patent #2 455 992 issued on Dec 14th, 1948. The game was probably designed earlier in 1946 but since we do not know this for a fact, we
