### **Notre Dame de Paris Audible Audiobook amazon com**

Originally published in 1831, Notre-Dame de Paris forces modern readers to slow down. Often a 300 page novel is now considered a ponderous read, when it comes to literary fiction, but this book weighs in at 561 pages of densely packed thought and action. The book, like many 19th Century books, is as much a sociological event as it is a narrative.
