

LOAN ASSETS

RELATED BOOK :

Asset based lending Wikipedia

Asset based loans are also usually accompanied by lower interest rates, as in the event of a default the lender can recoup their investment by seizing and liquidating the assets tied to the loan. Many financial services companies now use asset-based lending package of structured and leveraged financial services.

Why are loans on a bank's balance sheet listed as assets

Asset: Asset means something which the business owns. For example, plant and machinery. As already mentioned earlier, loan taken from bank is a liability. It is a liability for the borrower of the loan. On the other hand, for lender its opposite. For lender it is an asset (just like debtors or bills receivable). Any amount receivable is an asset.

What Are Assets Liabilities on a Home Loan Application

Types of Assets. Most mortgage lenders use some variation of the "Uniform Residential Loan Application," a document drawn up by Fannie Mae and Freddie Mac, two huge government-backed corporations that buy mortgages from lenders. The uniform application divides loan applicants' assets into two categories: liquid and non-liquid.
