

LIGHTING TECHNIQUES PHOTOGRAPHY

RELATED BOOK :

6 Portrait Lighting Patterns Every Photographer Should Know

Make sure there is light in your eyes from the softbox, you want the light to be at about 10 o'clock on your eyeball - so not too high it disappears, and not too low as to light up your nostrils. Notice also that I have the reflector in front of the camera, not around the other side.

10 Lighting Facts That Will Improve Your Photography

The narrower the source, the harder the light. A broad light source lessens shadows, reduces contrast, suppresses texture. A narrow light source does the opposite. This is because, with a broad source, light rays hit your subject from more directions, which tends to fill in shadows and give more even illumination to the scene.
