Fighting iron deficiency nestle cwa com

In 2009, the company decided to add iron to its Maggi bouillon cubes and tablets sold in Central and West Africa, in line with its global policy on micronutrient fortification. Public health data shows us that Central West Africa suffers from a high prevalence of iron deficiency, says Petra Klassen-Wigger, Scientific Advisor at Nestl s Nutrition, Health and Wellness department.

Iron Man Nestle s Answer to Nutrient Deficiencies World

Nestle, a Swiss-based food and beverage company, believes it can make proper nutrition easily available with a device it calls the Iron Man. The Iron Man can run nutrient profiles on its owners, assessing all of their health factors, including nutrient deficiency, diabetes, and obesity. It will then make meals specifically tailored to their nutritional needs.

Nearly One in Five Infants Diets Fall Short on Iron a

Infants typically have enough iron from birth until around 4 to 6 months, at which time they must consume

dietary sources of iron to achieve adequate intakes and avoid the risk for iron deficiency. However, the research indicates that consumption of iron-rich foods is less than ideal and in part explains the widening iron gap.
