The Storm Testament by Lee Nelson Goodreads

"The Storm Testament", by Lee Nelson, is a state of the art historical fiction book which I enjoyed. The element of setting is what makes this book truly unique, with the story taking place in the late 1800s during the time of exploring the unsettled west.

The Storm Testament falls short on all those points. Not only is the script heavy-handed and serious, but this production of it lacks the joy and enthusiasm that are usually the saving grace of a community theater show.
