### **Business ethics Wikipedia**

Business ethics (also known as corporate ethics) is a form of applied ethics or professional ethics, that examines ethical principles and moral or ethical problems that can arise in a business environment. It applies to all aspects of business conduct and is relevant to the conduct of individuals and entire organizations. These ethics originate from individuals, organizational statements or

### **Stakeholder corporate Wikipedia**

In a corporation, as defined in its first usage in a 1963 internal memorandum at the Stanford Research Institute, a stakeholder is a member of the "groups without whose support the organization would cease to exist". The theory was later developed and championed by R. Edward Freeman in the 1980s. Since then it has gained wide acceptance in business practice and in theorizing relating to
