Flatland: A Romance of Many Dimensions is a satirical novella by the English schoolmaster Edwin Abbott Abbott, first published in 1884 by Seeley & Co. of London. Written pseudonymously by "A Square", the book used the fictional two-dimensional world of Flatland to comment on the hierarchy of Victorian culture, but the novella's more enduring contribution is its examination of dimensions.

Synopsis of Flatland InDepthInfo

"Flatland: A Romance of Many Dimensions", by a Square (pseudonym for Edwin A. Abbott) is not a romance in the modern sense of the word. There are no torn bodices, nor longing looks. The book was written at the tail end of the Romantic Period in Europe. It is rather a fanciful view of what a universe might look like should it contain only two dimensions.
