RELATED BOOK :

Meisner technique Wikipedia

The Meisner Technique is an approach to acting which was developed by the American theatre practitioner Sanford Meisner. The focus of the Meisner approach is for the actor to "get out of their head", such that the actor is behaving instinctively to the surrounding environment.

About the Meisner Acting Technique Sanford Meisner

The Meisner technique is a progressive system of structured improvisations for developing concentration and imagination, stimulating instincts and impulses, and achieving the reality of doing in performance. In Meisner's view, great acting depends on the actor's impulsive response to what's happening around him.

What is the Meisner Acting Technique and How Far Does it

Meisner Technique is based on truthful acting and promotes a type of acting I like to call Behavioral Realism, a form of acting that it shares with Stella Adler's work. The other major division of American acting can be called Psychological Realism, and is represented by Lee Strasberg's Method acting.
