Novel Wikipedia

A novel is a relatively long work of narrative fiction, normally written in prose form, and which is typically published as a book.. The entire genre has been seen as having "a continuous and comprehensive history of about two thousand years", with its origins in classical Greece and Rome, in medieval and early modern romance, and in the tradition of the Italian renaissance novella.

The mechanism whereby members of the order Picornavirales specifically package their genomic RNAs is poorly understood. Research with monopartite members of the order, such as poliovirus, indicated that packaging is linked to replication, although the presence of packaging signals along the length of the viral RNA has also been suggested.
