### **Alternative medicine Wikipedia**

Alternative medicine, fringe medicine, pseudomedicine or simply questionable medicine is promotion or use of practices which are unproven, disproven, impossible to prove, or excessively harmful in relation to their effect in the attempt to achieve the healing effects of medicine. It differs from experimental medicine in that the latter employs responsible investigation, and is discarded

### **Alternative medicine kills cancer patients Science Based**

Alternative medicine, by definition, consists of medicine that either has not been shown to work or has been shown not to work. To paraphrase an old adage yet again, medicine that has been shown to work with an acceptable risk-benefit ceases to be alternative and becomes simply medicine.
