### **We Are Beings of Light Ascension Now**

The diagram isn't to scale because visible light, the light we see as colours, or as white light (all the colours together), makes up only 0.0001% of the whole electromagnetic spectrum. ### **The Reader by Bernhard Schlink Goodreads Share book**

What About the Children? The Reader is a profound exposition of the 'second generation' issues concerning moral guilt for the Holocaust. But it is, I think, also relevant more generally to the way in which human beings get ensnared incrementally into the evils of their society.
