Botanical illustration Wikipedia

Botanical illustration is the art of depicting the form, color, and details of plant species, frequently in watercolor paintings. They must be scientifically accurate but often also have an artistic component and may be printed with a botanical description in books, magazines, and other media or sold as a work of art. Often composed in consultation with a scientific author, their creation

Botanical Illustration in Watercolor Eleanor B

A very good book that teaches the reader how to create beautiful botanical illustrations. The book goes through drawing materials to use, then has good sections of how to draw plants by 'type', for example, teacup shaped flowers, tubular flowers, leaves, stems, spiral formation, and fruit.

A Systematic Treatment of Fruit Types WORLD BOTANICAL

Botanists today are uncertain as to which fruit types and terms should be recognized, perhaps because there are no rules to follow as in the case of the International Code of Botanical Nomenclature (ICBN) for naming plant species and their higher taxonomic levels (genera, families, orders, etc.), although similar rules were applied by Desvaux (1813).
