THE GOD PARTICLE University of Washington

To the outsider, perhaps the most salient characteristic of particle physics is the equipment, the instruments. I joined the quest just as particle accelerators were coming of age. They dominated physics for the next four decades, and still do. The first "atom smasher" was a few inches in diameter.

Review of The God Particle Foreword Reviews Book

God-Talk in a "Big Bang" World. In The God Particle, R. Kirby Godsey surprisingly bridges the science-religion divide without the need to endure brain- and soul-stretching philosophical calisthenics to get there. The result is a book that's not so much about squaring religion with science, but rather about presenting a way to think about science that allows for religion.
