The Fight or Flight Response NeilMD com

This fundamental physiologic response forms the foundation of modern day stress medicine. The "fight or flight response" is our body's primitive, automatic, inborn response that prepares the body to "fight" or "flee" from perceived attack, harm or threat to our survival.

Improve Immune System Function Boost White Blood Cells

If you want an incredibly strong immune system, you need to have high white blood cell counts. This is because white blood cells produce antibodies which are your body's first line of defense against foreign bacteria and viruses that try to get through the permeable layer of the skin. Our bodies make white blood cells over and over again since they are depleted and die off in a few days or a
