I think this book does well to highlight that love and respect are, indeed, very key aspects of relationships (for both partners, btw: women also need respect, and men also need love). I completely see how some, without a critical eye of the book, are positively impacted by the message.

Book Summary Love and Respect by Dr Emerson Eggerichs

Love and Respect Summary Yes, love is vital, especially for the wife, but what we have missed is the husband's need for respect. No husband feels fond feelings of affection and love in his heart when he believes his wife has contempt for who he is as a human being. Wives are made to love, want to love, and expect love.
