### **An introduction to my black powder revolver articles**

Compared to cartridge pistols, black powder revolvers require a lot more work and technical knowledge to get them to shoot properly, they are generally large and heavy for their caliber, they are slow to reload and you should clean them immediately after each shooting session.

### **Managing black powder fouling geojohn.org**

It is a long tradition that the cones be capped only as a final step. It has always been assumed that this is the most safe way to load a black powder revolver because the caps are exposed and may be set off if the pistol is dropped while loading other chambers.
