Books about the human body for kids ages 3 8 The

Books about the human body for kids ages 3-8. Without bones, you d be as floppy as a bean bag. Like other authors in this list, Balestrino has a gift for making science concepts interesting and engaging for your children. While some of it was over my 3-year-old s head, he still enjoyed the book. Recommended for kids through first grade.

My First Human Body Book Patricia J Wynne Donald M

This was a perfect book for our 3rd grade unit for the human body. My only complaint would be that the esophagus was called the food tube, I think it would have been better if Dover would just go ahead and use the anatomy words for the parts, even if they are big words, it gives kids a jump start on future years.
