Mental disorder Wikipedia

A mental disorder, also called a mental illness or psychiatric disorder, is a behavioral or mental pattern that causes significant distress or impairment of personal functioning. Such features may be persistent, relapsing and remitting, or occur as a single episode. Many disorders have been described, with signs and symptoms that vary widely between specific disorders.

Creativity and mental illness Wikipedia

History. It has been proposed that there is a particular link between creativity and mental illness (e.g. bipolar disorder, whereas major depressive disorder appears to be significantly more common among playwrights, novelists, biographers, and artists). Association between mental illness and creativity first appeared in literature in the 1970s, but the idea of a link between "madness" and
