RELATED BOOK :

Amazon com Life After Life The Bestselling Original

In Life After Life Raymond Moody investigates more than one hundred case studies of people who experienced "clinical death" and were subsequently revived. First published in 1975, this classic exploration of life after death started a revolution in popular attitudes about the afterlife and established Dr. Moody as the world's leading authority in the field of near-death experiences.

Life after Life Experiences Energy at the Sub Atomic Level

Energy at the Sub Atomic Level Max Planck. Life after life experiences have been explored, traditionally, in numerous spiritual ways. The concept of consciousness as a continuum had been never been approached other than from a spiritual angle until the 20 th century. Things changed dramatically when a branch of physics called quantum mechanics was born in 1925.

Afterlife Wikipedia

The afterlife (also referred to as life after death) is the belief that the essential part of an individual's identity or the stream of consciousness continues after the death of the physical body. According to various ideas about the afterlife, the essential aspect of the individual that lives on after death may be some partial element, or the entire soul or spirit, of an individual, which
