Risk Wikipedia

Risk is the possibility of losing something of value. Values (such as physical health, social status, emotional well-being, or financial wealth) can be gained or lost when taking risk resulting from a given action or inaction, foreseen or unforeseen (planned or not planned). Risk can also be defined as the intentional interaction with uncertainty.

Wealth management Wikipedia

Wealth management is an investment-advisory discipline which incorporates financial planning, investment portfolio management and a number of aggregated financial services offered by a complex mix of asset managers, custodial banks, retail banks, financial planners and others. There is no equivalent of a stock exchange to consolidate the allocation of investments and promulgate fund pricing
