10 Beautiful Eco Houses Which One Would You Choose I II

I know this home is trying to bring some bling to eco homes, and I think it s beautiful (though I would have gone for a view), but this is a classic embodied energy fail. Once you ve done endless digging, used tonnes of steel and hundreds of cubic metres of concrete the high efficiency of the building is a bit redundant.

8 Design Tips for an Eco Friendly Home Coastal Living

Design for a small footprint. A grid of small holes, rather than an invasive crater for a foundation, was dug for pilings that support the house's small but tall design. These homeowners added the steel-and-cedar railing to the rooftop terrace that rises above even the tallest trees.
