### **Software as a service Wikipedia**

Software as a service (SaaS / s s /) is a software licensing and delivery model in which software is licensed on a subscription basis and is centrally hosted. It is sometimes referred to as "on-demand software", and was formerly referred to as "software plus services" by Microsoft. SaaS is typically accessed by users using a thin client via a web browser. SaaS has become a common delivery

### **What should be included in COGS for my SaaS business**

Accounting rules are very specific on some things, and surprisingly unhelpful in other areas. There are no Generally Accepted Accounting Principles (GAAP) rules on the type of costs that are included in Cost of Goods Sold (COGS). This is unfortunate because the gross margins of SaaS businesses are very important to the overall performance, profitability, and valuation.
