Architecture History Evolution of Building Design

Egyptian Architecture. The first great civilization to emerge around the Mediterranean basin was that of Egypt (c.3100-2040 BCE). In addition to its own written language, religion and dynastic ruling class, it developed a unique style of Egyptian architecture, largely consisting of massive burial chambers in the form of Pyramids (at Giza) and underground tombs (in the desolate Valley of the

History of the world Wikipedia

The history of the world, in common parlance, is the history of humanity (or human history), as determined from archaeology, anthropology, genetics, linguistics, and other disciplines; and, for periods since the invention of writing, from recorded history and from secondary sources and studies.. Humanity's written history was preceded by its prehistory, beginning with the Palaeolithic Era

American Architecture Origins History Characteristics

Modernist Architecture in America (c.1925-60) A late feature of modern art in general, Modernist Architecture was the attempt to create new designs for the "modern man". It rejected all traditional styles based on older prototypes, and proposed a new type of functional design which used modern materials and construction techniques, to create a new aesthetic and sense of space.
