What is Relaxation innerhealthstudio com

During a relaxation exercise (such as progressive muscle relaxation, visualization, meditation, or another relaxation technique) muscle tension decreases, blood pressure goes down, the mind becomes calm, and the harmful effects of prolonged stress are counteracted.. The "relaxation response" is the opposite of the stress response. The stress response is also known as the fight-or-flight response.

The Fight or Flight Response NeilMD com

This fundamental physiologic response forms the foundation of modern day stress medicine. The "fight or flight response" is our body's primitive, automatic, inborn response that prepares the body to "fight" or "flee" from perceived attack, harm or threat to our survival.
