H P Lovecraft The Complete Omnibus Collection Volume I

The collection is interspersed with a fair amount of Lovecraft's biographical background that puts the tales in context. A longer and deeper exposition of Cosmicism and its post-Lovecraft developments would have been interesting.

H P Lovecraft The Complete Collection by H P Lovecraft

This is an amazing collection of H.P. Lovecraft's work. That said it is Lovecraft. Very weird and not for everyone. I feel as though I am always waiting for something that never quite gets there. They are enjoyable, but in my experience the longer the stories are the more "overweight" they become.

The Complete Works of H P Lovecraft by H P Lovecraft

A complete collection of H.P. Lovecraft's solo works (no collaborations), arranged by date. It's a huge work, no doubt. My only gripe about the stories is that Lovecraft was overfond of a narrative style.
