American middle class Wikipedia

The American middle class is a social class in the United States. While the concept is typically ambiguous in popular opinion and common language use, contemporary social scientists have put forward several ostensibly congruent theories on the American middle class. Depending on the class model used, the middle class constitutes anywhere from 25% to 66% of households.

American upper class Wikipedia

The American upper class is a social group within the United States consisting of people who have the highest social rank, primarily due to the use of their wealth to achieve social status. These criteria differ from those of the traditional "upper class" in Britain and Europe which favor landed gentry and aristocracy (although such class distinctions have been deteriorating in recent times).

The habits of the wealthy What rich people do differently

I'm fascinated by the differences between rich people and poor people. Are the differences mostly a matter of class and economic mobility? Are people born to wealth and poverty and destined to remain there? Or are there observable differences in attitude and action that tend to lead people to specific levels of affluence? From my experience, it's some of both.
