Africa A Biography of the Continent by John Reader

I read Meredith's "The Fortunes of Africa" & Reader's "Africa: The Biography of the Continent" at the same time & found remarkable similarities in the two works so I will review them together. Both are large volumes covering the history, geography, people, & colonization of the continent.

Africa a biography of the continent John Reader

Africa: a biography of the continent. Out of Africa, the world's most ancient and stable landmass, Homo sapiens dispersed across the globe. And yet the continent that gave birth to human history has long been woefully misunderstood and mistreated by the rest of the world. In a book as splendid in its wealth of information as it is breathtaking in

Africa A Biography of the Continent by John Reader

Africa: A Biography of the Continent, by John Reader Good on archaeology, soul-searingly good on the colonial era, the only significant gap is that there is little about Islam. Reader is a white South African, so he has a mixed outsider/insider perspective on the continent.
