Methodology Coherence and cohesion Onestopenglish

Put simply, then: cohesion is a formal feature of texts (it gives them their texture), while coherence is "in the eye of the beholder" - that is to say, it is the extent to which the reader (or listener) is able to infer the writer's (or speaker's) communicative intentions. Thus, cohesion is objectively verifiable, while coherence is more subjective.

Floating Paper Clip Science project Education com

Have you ever seen a bug skate across the surface of water? This is made possible by the cohesion of water molecules on the surface of the water. When we say that water molecules are cohesive, we mean that they stick tightly to one another so much so that they create surface tension. Because bugs weigh very little, they can rest their weight on the top of the water without breaking the tension
