Airframe by Michael Crichton Goodreads Share book

Airframe is a novel about airplanes, and specifically an investigation into a plane accident by the plane's manufacturer. Though all the characters know more about airplanes than you ever will, Crichton has presented a spectacular mixture of in-depth research and understandable explanations.

Airframe by Michael Crichton Paperback Barnes Noble

The book of Airframe is one of Michael Crichton's best novels that I have read. The story is very interesting and if you like mystery novels this is one of them. It will pull you in. You do not find out what the cause of the accident is until the end. A great book. I hope you enjoy.
