The Easiest Way to Make Black Powder wikiHow

How to Make Black Powder. Black powder is a simple mixture of powdered potassium nitrate or saltpeter, charcoal and sulfur. But simply mixing the ingredients together is not going to give you the results you are looking for. Follow these

CFE Pistol Powder my results The Leading Glock Forum

Ok, i haven't seen much data floating around on the CFE pistol powder. I have 8lbs of it, hoping to use it to ride out the shortage on my regular powders. I had high hopes for this powder. After chronographing my 40 and 10mm loads, i am very disappointed. This powder is slow burning and does not

Amazon com RCBS Competition Powder Measure Pistol

This works fine and is built well like all RCBS stuff. I'm not sure about the value of the "micrometer" adjustment since you can hardly read it and should check your throw weights each time you change settings or powder anyhow.

Amazon com Bob Allen Black Bison Pistol Case Soft

This X-Large pistol rug was purchased to replace a failed zipper circa 1962 Bob Allen pistol rug for the same weapon (Ruger Super Black Hawk). I like everything about this new one except one thing - the interior lining is anything but soft and unless one covers the rug interior (eg, flannel or mouton) or the weapon (eg, a Bob Allen silicone gun sock) with something soft the rug will scratch

Black Powder Shotgun Shells

Black Powder is a simple mixture of potassium nitrate, sulphur, and charcoal. The proper granulation is named 'ffg'. It is also called '2F'. Anything finer is dangerous because it burns too quick and the pressure climbs too high.

Managing black powder fouling gejohn org

It is a long tradition that the cones be capped only as a final step. It has always been assumed that this is the most safe way to load a black powder revolver because the caps are exposed and may be set off if the pistol is dropped while loading other chambers.
