

PUDENDAL NERVE TREATMENT

RELATED BOOK :

Pudendal nerve Wikipedia

The pudendal nerve is the main nerve of the perineum.: 274 It carries sensation from the external genitalia of both sexes and the skin around the anus and perineum, as well the motor supply to various pelvic muscles, including the male or female external urethral sphincter and the external anal sphincter. If damaged, most commonly by childbirth, lesions may cause sensory loss or fecal incontinence.
