What is a Mini Split FUJITSU GENERAL United States Canada

Mini-splits are heating and cooling systems that allow you to control the temperatures in individual rooms or spaces. Mini-split systems have two main components -- an outdoor compressor/condenser and an indoor air-handling unit(s) (evaporator).

Ductless Mini Split Air Conditioning and Heating Systems

Mini-split systems are made up of two primary parts, the outside part called a "condenser" (for cooling-only models) or heat pump (for heating and cooling models), and the inside part that mounts on an outside wall called an "air handler". The home temperature is set and changed by convenient remote control(s).
