Product lifecycle Wikipedia

In industry, product lifecycle management (PLM) is the process of managing the entire lifecycle of a product from inception, through engineering design and manufacture, to service and disposal of manufactured products. PLM integrates people, data, processes and business systems and provides a product information backbone for companies and their extended enterprise.

Aligning PDM and PLM with Part and Design Business Objects

Narasimha, well, you got me curious because I can't find much of anything on that product. Google gives me about three hits. One hit I did find was this guy's linkedin profile, which mentions, TcPMM integrations with other ERP / MRP systems(~ SAP). From that little bit it sounds to me like TcPMM is for integrating with BOMs in other, external, systems, such as SAP.
