### **Growing Vegetables in Containers Better Homes Gardens**

Look for vegetable container gardens that are at least 10 inches wide and 12 inches deep. Large flowerpots, half barrels, plastic-lined bushel baskets, window boxes, planters, and large containers (like 5-gallon buckets) work just fine. Some vegetables need particularly large pots to grow in a vegetable container garden.

### **Container Gardening with Vegetables Getting Started**

Care Tips for Container Gardening with Vegetables. Clay pots are usually more attractive than plastic ones, but plastic pots retain moisture better and won't dry out as fast as unglazed terra-cotta ones. To get the best of both, slip a plastic pot into a slightly larger clay pot. Black pots absorb heat when they are sitting in the sun.

### **Urban Gardening with Vegetables Urban Gardens**

For some gardeners, growing vegetables in containers is a necessity. Urban gardening often means growing on rooftops, balconies, alleyways, sidewalks or whatever little space the gardener has available. Gardeners with physical disabilities find that growing vegetables in containers makes them far easier to reach and tend. Difficult soil conditions (sand, stone, clay) makes growing vegetables especially challenging.
