Tropism Wikipedia

A tropism (from Greek , tropos, "a turning") is a biological phenomenon, indicating growth or turning movement of a biological organism, usually a plant, in response to an environmental stimulus. In tropisms, this response is dependent on the direction of the stimulus (as opposed to nastic movements which are non-directional responses).). Viruses and other pathogens also affect

House of Leaves Wikipedia

House of Leaves is the debut novel by American author Mark Z. Danielewski, published in March 2000 by Pantheon Books. A bestseller, it has been translated into a number of languages, and is followed by a companion piece, The Whalestoe Letters. The format and structure of House of Leaves is unconventional, with unusual page layout and style, making it a prime example of ergodic literature.

Milkweed Common Eat The Weeds and other things too

Actually that s not quite accurate. There is general agreement that young milkweed shoots, leaves and pods are edible after boiling. The two questions are how many times should you change the water and should the water always be boiling or can you put them in cold water to start?
