How to Think Straight about Psychology by Keith E Stanovich

How to Think Straight about Psychology is an introductory textbook for psychology students but it's also a great introduction to what I might call practical philosophy of science. A lot of philosophy of science, when it's under that label, is about things like Can science be true if it's socially constructed? or How can we

Amazon com How to Think Straight About Psychology

This is a wise, thoughtful book about the scientific method, and how we use these techniques to arrive at an understanding of the world. It talks about the nature of knowledge, what scientific truth is, and how common misconceptions can lead us astray. In short, the phrase "about psychology" is superfluous; this is a book about thinking straight.
